

Concentrated Power from Nature

Plant Extracts for the Pharmaceutical Industry

Good health is the measure of all things

Finzelberg makes your access to nature as easy as possible: With over 125 years of experience, we produce plant extracts for the pharmaceutical industry using the very latest state-of-the-art technology.

We offer a wide range of extracts from more than 100 plants – allowing us to cover a wide spectrum of medical indicators for both human and veterinarian use.

Innovative Solutions from a Single Source

Our development possibilities are as varied as nature itself. Research and development are thus continually ongoing activities.

Our main focus is on extracts for phytopharmaceuticals and dietary supplements. In addition, Finzelberg offers extensive related services. For our customers that means: All-around care – from the plant to the marketable product.

The wide range of expertise of our competent team is at our customer's disposal for all process phases: From conception and development, to production and quality control and including registration and international marketing. For the good of our customers, we are continually working to innovate – always in harmony with nature.

The nature network – International Competence

Worldwide, 20 companies and over 2000 employees are closely networked together under the covering of the parent company MB-Holding. This global network of strong companies covers all areas relating to the natural plant. Thus we can guarantee the secure supply of raw material and offer our customers a multiplication of performance in many areas. Of course, it goes without saying that the full extent of available know-how in the worldwide “nature network” is at the disposal of our customers.

Uncompromised Quality

We have earned the trust of our customers. And we know that we owe it to them to work hard to keep that trust. At Finzelberg, all drugs and extracts are produced using the most modern manufacturing processes. GAP, GMP and GLP are foundations of our daily work.

The Most Modern Production Processes

When dealing with physical health, a consistently high level of extract quality is absolutely necessary. Thanks to modern production techniques, we are able to extract in various ways and to concentrate and dry product in a gentle and protective manner. This allows us to provide you with high quality extracts which are exactly tailored to fit your needs.

Our “from start to finish” quality management system oversees the entire process and produces the appropriate pharmaceutical documentation. The results of our optimised and officially validated process: Safe and effective plant extracts. Uncompromised quality!

Scientific Service

Contracted by our worldwide active customers, our development team creates new extracts and the resulting finished products. Close cooperation with the contracting customer is very important to us in this process. We take full advantage of the competence of our worldwide “nature network” to deal with analysis, registration, documentation, legal questions as well as with marketing on an international level. If you are looking for dossiers, registrations or imported products, we are glad to be of assistance in those areas as well.

RediRun – Simply intelligent

RediRun is a unique product concept for the phyto-industry: Formulations can be produced in tablet form directly. That means that interim steps such as wet granulation or compacting are no longer necessary. RediRun makes even the smallest tablets, high dosages, one-time containers and active ingredient combinations possible. It provides high flexibility and reasonable cost of production.

Dietary Supplements in their Finest Form

Dietary supplements are nutritional materials in concentrated form. As a complement to normal foods, they provide the body with physiologically important nutritional elements. These are particularly important when the normal diet is not well balanced.

**nutrifin –
Unlimited Possibilities**
Under the new umbrella brand **nutrifin** we offer you intelligent product concepts based on plant extracts. These are tailor-made concepts which will have a positive effect on the well-being of your customers and thus, ultimately, on your business success as well.

The latest discoveries of nutritional science form the basis of our work. Whether you are dealing with a mixture of extracts or the packaging design of a finished product, our team is glad to be at your disposal with a broad range of services – from appropriate development for a specific market to the positioning of new product concepts.

Extract List

	Product	Botanical name	Plant part	Uses / Identification
A	Aloe	<i>Aloe capensis</i>		Laxative
	Artichoke	<i>Cynara scolimus</i>	Leaf	Supports bile flow
B	Bearberry	<i>Arctostaphylos uva-ursi</i>	Leaf	Diuretic
	Belladonna	<i>Atropa belladonna</i>	Leaf	Spasmolytic
	Bilberry	<i>Vaccinium myrtillus</i>	Fruit	Maintain good eye health
	Birch	<i>Betula pubescens/pendula</i>	Leaf	Diuretic
	Buckthorn	<i>Rhamnus frangula</i>	Bark	Laxative
	Black cohosh	<i>Cimicifuga racemosa</i>	Rhizome	Menopausal symptoms
	Black horehound	<i>Ballota nigra</i>	Herb	
	Bladderwrack	<i>Fucus vesiculosus</i>		
	Butcher's broom	<i>Ruscus aculeatus</i>	Rhizome	Varicose veins
C	Cayenne Pepper	<i>Capsicum frutescens</i>	Fruit	Antirheumatic
	Chamomile	<i>Matricaria recutita</i>	Flower	Calms GI-tract / spasmolytic
	Chaste tree	<i>Vitex agnus-castus</i>	Fruit	Menopausal symptoms
	Common asparagus	<i>Asparagus officinale</i>	Graft	Diuretic
	Common ivy	<i>Hedera helix</i>	Leaf	Expectorant
	Cranberry	<i>Vaccinium vitis-idaea</i>	Fruit	Urinary tract infection
	Curcuma	<i>Curcuma xanthorrhiza</i>	Rhizome	Supports bile flow
D	Damiana	<i>Tunera diffusa</i>	Leaf	Aphrodisiac
	Dandelion	<i>Taraxacum officinale</i>	Root with herb	Supports bile flow
	Devil's claw	<i>Harpagophytum procumbens</i>	Root	Antirheumatic
E	Echinacea	<i>Echinacea purpurea</i>	Root	Immune stimulant
	Echinacea	<i>Echinacea purpurea</i>	Herb	Immune stimulant
F	Fumitory	<i>Fumaria officinalis</i>	Herb	Supports bile flow

	Product	Botanical name	Plant part	Uses / Identification
G	Garlic	<i>Allium sativum</i>	Bulb	Cholesterol lowering
	Ginger	<i>Zingiber officinale</i>	Rhizome	Antirheumatic / motion sickness
	Ginkgo biloba	<i>Ginkgo biloba</i>	Leaf	Improves blood flow
	Ginseng	<i>Panax ginseng</i>	Root	Adaptogen, tonic
	Golden rod	<i>Solidago virgaurea</i>	Herb	Diuretic
	Golden root	<i>Rhodiola rosea</i>	Root	Adaptogen
	Grape seed	<i>Vitis vinifera</i>	Seed	Antioxidant
	Green chiretta	<i>Andrographis paniculata</i>	Herb	Immune stimulant / expectorant
	Guarana	<i>Paullinia cupana</i>	Seed	Stimulant
H	Hawthorn	<i>Crataegus-species</i>	Leaf with flowers	Cardiac stimulant
	Hawthorn	<i>Crataegus-species</i>	Fruit	Cardiac stimulant
	Hops	<i>Humulus lupulus</i>	Hop strobiles	Sedative
	Horse chestnut	<i>Aesculus hippocastanum</i>	Seed	Varicose veins
	Horsetail	<i>Equisetum arvense</i>	Herb	Diuretic
J	Java tea	<i>Orthosiphon stamineus</i>	Leaf	Diuretic
L	Lemon balm	<i>Melissa officinalis</i>	Leaf	Sedative
	Liquorice	<i>Glycyrrhiza glabra</i>	Root	Expectorant
M	Milk thistle	<i>Silybum marianum</i>	Fruit	Supports liver health
	Mistletoe	<i>Viscum album</i>	Herb	
	Muira puama	<i>Muira Puama</i>	Wood	Aphrodisiac
N	Nettle	<i>Urtica dioica/urens</i>	Leaf	Antirheumatic
	Nettle	<i>Urtica dioica/urens</i>	Root	Supports prostata health
O	Olive	<i>Olea europaea</i>	Leaf	Antioxidant

	Product	Botanical name	Plant part	Uses / Identification
P	Paraguay tea	Ilex paraguariensis	Leaf	Stimulant
	Passion flower	Passiflora incarnata	Herb	Sedative
	Plantain	Plantago lanceolata	Herb	Expectorant
	Pumpkin	Cucurbita pepo.	Seed	Supports prostata health
R	Red wine leaf	Vitis vinifera	Leaf	Varicose veins
	Rhubarb	Rheum officinale	Root	Laxative
S	Sacred bark tree	Rhamnus purshiana	Bark	Laxative
	Sage	Salvia officinalis	Leaf	Mouth sores / sore throat
	Saw palmetto	Sabal serrulata	Fruit	Prostata health
	Senega snakeroot	Senega virginia	Root	Expectorant
	Senna	Cassia senna	Fruit	Laxative
	Senna	Cassia senna	Leaf	Laxative
	Siberian ginseng	Eleutherococcus senticosus	Root	Adaptogen
	St. John's wort	Hypericum perforatum	Herb	Antidepressant
	Sweet clover	Melilotus officinalis	Herb	Varicose veins
T	Thorny restharrow	Ononis spinosa	Root	Diuretic
	Thyme	Thymus vulgaris	Herb	Expectorant
V	Valerian	Valeriana officinalis	Root	Sedative
W	Willow	Salix-species	Bark	Analgetic / pain relief
Y	Yohimbe	Pausinystalia yohimbe	Bark	Aphrodisiac
